MotoGP, Rd12 Brno (replay)	5.00pm	Fox Sports 1

### BEEMER REFRESHER

BMW Australia has expanded its off-road training courses to include trailbikes, following the release of its G 650 Xchallenge. The courses will be held at Werribee Gorge in Victoria and at Dargle in NSW on a BMW-supplied fleet of Xchallenge motorcycles. Prices start at \$850 and include bike hire and lunch.

### BARE THE LOAD

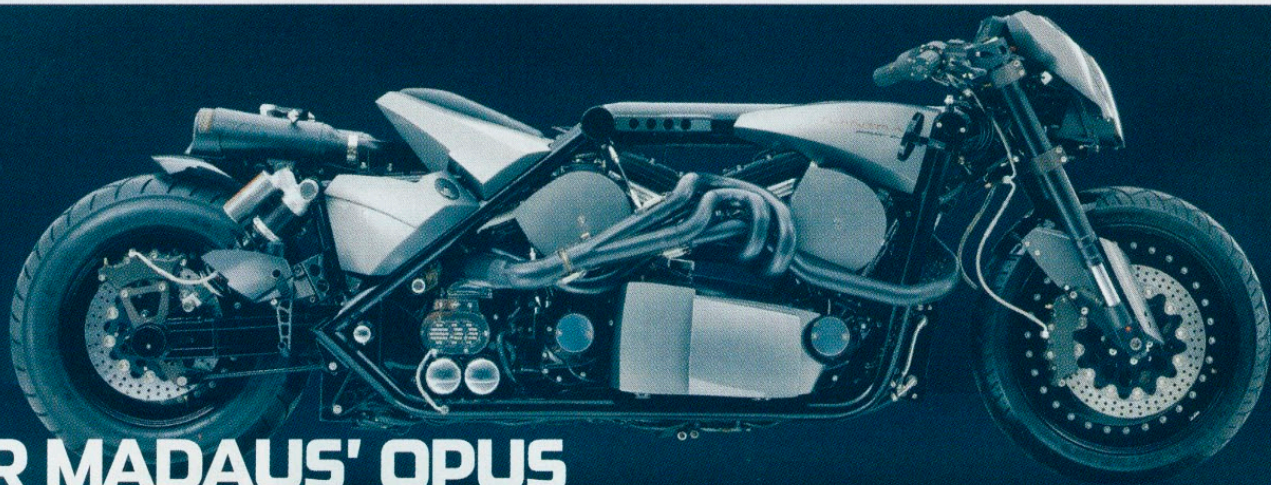

Motorcycle Accessory Warehouse at Castle Hill is moving 50 metres away and the staff don't want to have to carry too much. A sale will see at least 15 percent off everything in-store and a 'make-an-offer' pile until the end of August. Phone (02) 9634 2014 for details.

### MRAA SHAME FILE

The Motorcycle Riders Association has instigated a shame file on its website to draw attention to blatantly dangerous roadsides throughout Victoria. Get informed at [mraaboarddiary.blogspot.com](http://mraaboarddiary.blogspot.com)

### ORANGE STING

The Honda CB900 Hornet has received a visual revamp, courtesy of the arrival of a new Candy Blaze Orange colour scheme. The Hornet is also available in black paint and trim from \$14,290, plus on roads.

## MR MADAUS' OPUS

German enthusiast Cristoph Madaus has spent the last 12 years developing the Twintrax motorcycle which is powered by two 1340cc Harley-Davidson/S&S Evolution engines. The 400kg machine utilises a five-

speed Harley-Davidson transmission and a belt drive. A 50mm wide belt runs between the two motors, while a 85mm wide belt provides the final drive to the rear wheel.

Madaus himself manufactured the frame,

fuel and oil tanks, seat, handlebars and oil cooler. Three six-piston calipers provide the stopping power, while WP suspension is used both on the front and rear of the 2.71 metre long motorcycle.
